SECTION D – RISKS

D.2	<p>Key risks regarding the issuer</p> <p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect its business and ability to make payments due under the Notes.</p> <p>These factors include:</p> <ul style="list-style-type: none"> • Banca IMI's business may be adversely affected by international markets and economic conditions;

	<ul style="list-style-type: none"> • Negative economic developments and conditions in the markets in which Banca IMI operates may adversely affect Banca IMI's business and results of operations; • Banca IMI's business is sensitive to current adverse macroeconomic conditions in Italy; • Banca IMI's business is exposed to counterparty credit risk; • Deterioration in Banca IMI's loan portfolio to corporate customers may affect Banca IMI's financial performance; • Banca IMI's business is exposed to settlement risk and transfer risk; • Banca IMI's business is exposed to market risk; • Banca IMI's business is exposed to operational risks; • Banca IMI's business is exposed to liquidity risk; • Legal risks; • Banca IMI's business is exposed to risks arising from assumptions and methodologies for assessing financial assets and liabilities measured at fair value; • Banca IMI's business is exposed to increasing competition in the financial services industry; • Banca IMI's business is exposed to risks arising from the loss of key personnel; • Banca IMI's framework for managing its risks may not be effective in mitigating risks and losses; • Banca IMI's business is exposed to reputational risk; • Regulatory claims may arise in the conduct of Banca IMI's business; • Banca IMI operates within a highly regulated industry and its business and results are affected by the regulations to which it is subject including the Banking Resolution and Recovery Directive; • Banca IMI's business performance could be affected if its capital adequacy ratios are reduced or perceived to be inadequate; • Banca IMI's business is exposed to risk of changes in tax legislation as well as to increases in tax rates; and • Banca IMI's business is exposed to risk related to transactions in financial derivatives.
D.3	Key risks regarding the Notes
	<p>There are also risks associated with specified types of Notes and with the Notes and the markets generally, including:</p> <ul style="list-style-type: none"> • <i>The Notes may not be a suitable investment for all investors</i> Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances; • <i>Risks related to the structure of a particular issue of Notes</i> A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. <p>(i) <u><i>Fixed/Floating Rate Notes</i></u></p>

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

(ii) The interest rate on Fixed Rate Reset Notes will reset on each Reset Date, which can be expected to affect the interest payment on an investment in Fixed Rate Reset Notes and could affect the market value of Fixed Rate Reset Notes

Fixed Rate Reset Notes will initially earn interest at the Initial Rate of Interest until (but excluding) the first Reset Date. On the first Reset Date, however, and on each Reset Date (if any) thereafter, the interest rate will be reset to a different fixed rate of interest per annum (each such interest rate, a Reset Rate of Interest). The Reset Rate of Interest for any Reset Period could be less than Initial Rate of Interest or the Reset Rate of Interest for prior Reset Periods and could affect the market value of an investment in the Fixed Rate Reset Notes

(iii) Risks relating to Dual Currency Notes

The Issuer may issue Dual Currency Interest Notes and/or Dual Currency Redemption Notes (together, Dual Currency Notes) where the interest and/or principal is payable in one or more currencies which may be different from the currency in which the Notes are denominated. Currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations.

(iv) Maximum/ Minimum Rate of Interest

Potential investors should consider that where the underlying interest rate does not rise above the level of the Minimum Rate of Interest, comparable investments in notes which pay interests based on a rate which is higher than the Minimum Rate of Interest are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes may find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount.

To the extent a Maximum Rate of Interest applies, investors should be aware that the Interest Rate is capped at such Maximum Rate of Interest level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affects the market value of the Notes.

(v) Notes issued at a substantial discount or premium

The market value of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(vi) Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

(vii) Euro-system Eligibility

The European Central Bank maintains and publishes a list of assets which are recognised as eligible collateral for Eurosystem monetary and intra-day credit operations. In certain circumstances, recognition may impact on (among other things) the liquidity of the relevant assets. Recognition (and inclusion on the list) is at the discretion of the Eurosystem and is dependent upon satisfaction of certain Eurosystem eligibility criteria and rules. If application is made for any Notes to be recognised and added to the list of eligible assets, there can be no assurance that such Notes will be so recognised, or, if they are recognised, that they will continue to be recognised at all times during their life.

(viii) Calculation Agent's Discretion and Conflicts of Interest

The Calculation Agent may make certain determinations in respect of the Notes, and certain adjustments to the Terms and Conditions of the Notes, which could affect amounts of interest and/or principal payable by the Issuer in respect of the Notes. The Terms and Conditions of the Notes will specify the circumstances in which the Calculation Agent will be able to make such determinations and adjustments. In exercising its right to make such determinations and adjustments the Calculation Agent is entitled to act in its sole and absolute discretion.

• ***Risks related to Notes generally***

(i) *Modification, waivers and substitution*

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. The Terms and Conditions of the Notes also provide that the Agent and the Issuer may, without the consent of Noteholders, agree to (i) any modification (subject to certain specific exceptions) of the Notes or the Coupons or the Agency Agreement which is not prejudicial to the interests of the Noteholders or (ii) any modification of the Notes, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of law.

(ii) *EU Savings Directive*

Under EC Council Directive 2003/48 (EU Savings Directive) recently replaced by EC Council Directive 2014/107, Member States are required to provide to the tax authorities of other Member State details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

(iii) *Taxation*

Potential purchasers and sellers of Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred and/or any asset(s) are delivered or in other jurisdictions. In addition, it is not possible to predict whether the taxation regime applicable to Notes on the date of purchase or subscription will be amended during the term of the Notes. If such amendments are made, the taxation regime applicable to the Notes may differ substantially from the taxation regime in existence on the date of purchase or subscription of the Notes.

(iv) *No Gross Up in respect of Certain Series of Notes*

If the applicable Final Terms specify that Condition 7(ii) is applicable, the Issuer is not obliged to gross up any payments in respect of the Notes and shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

(v) *U.S. Foreign Account Tax Compliance Withholding*

The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, "foreign passthru payments" (a term not yet defined) made after 31 December 2018. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "grandfathering date," which is the date that is six months after the date on which final U.S. Treasury Regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified after the grandfathering date, and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price. While the Notes are in global form and held within the clearing systems, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. FATCA also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose their custodians and intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or

intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Notes are discharged once it has paid the common depository for the clearing systems (as bearer or registered holder of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through the hands of the clearing systems and custodians or intermediaries. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA withholding. If an amount in respect of U.S. withholding tax were to be deducted or withheld from payments on the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive a lesser amount than expected. Holders of Notes should consult their own tax advisers for a more detailed explanation of FATCA and how FATCA may apply to payments they receive under the Notes.

FATCA is particularly complex and its application to the Issuer, the Securities, and investors in the Securities are uncertain at this time. The application of FATCA to "foreign passthrough payments" on the Securities or to Securities issued or materially modified after the grandfathering date may be addressed in the relevant Final Terms or a supplement to the Base Prospectus, as applicable.

(vi) Change of law

The Terms and Conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

(vii) Notes where denominations involve integral multiples: definitive Notes

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

(viii) Reliance on Euroclear and Clearstream, Luxembourg procedures

Notes issued under the Programme will be represented on issue by one or more Global Notes that may be deposited with a common depository or common safekeeper for Euroclear and Clearstream, Luxembourg (see "Form of the Notes"). Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each of Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants. While the Notes are represented by Global Notes, the Issuer will discharge its payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note. Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

(ix) Public offers

If Notes are distributed by means of a public offer, under certain circumstances indicated in the relevant Final Terms, the Issuer and/or other entities specified in the Final Terms may have the right to withdraw the offer, which in such circumstances will be deemed null and void according to the terms indicated in the relevant Final Terms. Furthermore, under certain circumstances indicated in the relevant Final Terms, the Issuer and/or the other entities specified in the Final Terms may have the right to postpone the closing of the offer period and, if so, the Issue Date of the Notes.

• ***Risks related to the market generally***

(i) The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

(ii) Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency or, if Dual Currency Interest and/or Dual Currency Redemption is specified as being applicable in the Final Terms, the Issuer will pay principal and/or interest on the Notes in a currency different to the Specified Currency (the Payment Currency). This presents certain risks relating to currency conversion if an investor's financial activities are denominated principally in a currency or currency unit (the Investor's Currency) other than the Specified Currency and/or, as applicable, the Payment Currency. These include the risk that exchange rates may significantly change and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal. The above risks may be increased for currencies of emerging market jurisdictions.

(iii) Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes. Investment in Floating Rate Notes involves the risk that interest rates may vary from time to time, resulting in variable interest payments to Noteholders.

(iv) Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

(v) Any decline in the credit ratings of the Issuer may affect the market value of the Notes

The credit ratings of the Issuer are an assessment of its ability to pay its obligations, including those on the Notes. Consequently, actual or anticipated declines in the credit ratings of the Issuer may affect the market value of the Notes.

- **Legal risks**

(i) Legal investment considerations may restrict certain investments

Each prospective purchaser of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its (or if it is acquiring the Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Notes in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. Potential investors should consult with their own tax, legal, accounting and/or financial advisers before considering investing in the Notes. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

(ii) No reliance

A prospective purchaser may not rely on the Issuer, the Managers, if any, or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above. None of the Issuer, the Managers, if any, or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

- **Risks relating to holding CREST Depository Interests**

(i) CREST Depository Interests are separate legal obligations distinct from the Notes and holders of CREST Depository Interests will be subject to provisions outside the Notes

	<p>Holders of CDIs (CDI Holders) will hold or have an interest in a separate legal instrument and will not be holders of the Notes in respect of which the CDIs are issued (the Underlying Notes). The rights of CDI Holders to the Notes are represented by the relevant entitlements against the CREST Depository (as defined herein) which (through the CREST Nominee (as defined herein)) holds interests in the Notes. Accordingly, rights under the Underlying Notes cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians. The enforcement of rights under the Notes will be subject to the local law of the relevant intermediaries. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Notes in the event of any insolvency or liquidation of any of the relevant intermediaries, in particular where the Notes held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer, including the CREST Deed Poll (as defined herein). Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual (as defined herein) and the CREST Rules (as defined herein) contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository. CDI Holders are bound by such provisions and may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of, and returns received by, CDI Holders may differ from those of holders of Notes which are not represented by CDIs. In addition, CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Notes through the CREST International Settlement Links Service. Potential investors should note that none of the Issuer, the relevant Manager and the Paying Agents will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.</p>
